

6005 solar panel frame

6005 solar panel frame

Industrial Aluminum Profiles for Solar Panel Frames and Mounting

Basic Construction: Most frames consist of extruded aluminum profiles connected by corner keys. Think of it like a picture frame for your solar panel, but with engineering precision.

Aluminum Solar Panel Frames , Aluminium Frame for Solar Panel

The 6005 T6 aluminum alloy used in Orin frames provides a balance of strength, durability, and workability, making it the preferred choice for demanding solar installations.

Why Aluminum 6005-T6 Is the New Standard for Large-Format ...

Aluminum Alloy 6005 is a robust upgrade from the 6063 series. By increasing the Silicon (Si) and Magnesium (Mg) content, the alloy creates a stronger crystal structure during heat treatment.
