

Arc flash switchgear for sale in South-Africa

Overview

What are arc flash suits?

Arc Flash Suits are designed to provide protection from arc flash heat exposures. Arc flash suits are designed to protect the electrical technician from heat and to reduce or minimize total burn injury. This helps to provide the user with extra seconds of protection to help escape possible secondary explosions or fires in the work area.

What is an arc flash jacket?

Arc Flash Jacket designed to interface with Arc Flash Hood. An electrical arc flash is more severe with higher voltages & higher fault level ratings of the equipment (switchgear) substation. The greater the flash, the greater the severity of the radiation exposed to the operator.

What arc flash mitigation solutions do you offer?

We offer a variety of arc flash mitigation solutions, such as switchgear, software, and circuit breakers, for both passive and active arc flash protection. Our systems comply with the National Fire Protection Association (NFPA) 70E: standard for electrical safety in the workplace. Need help?

.
