

Barbados Container Generator Plant

Overview

Does Barbados have a green hydrogen project?

\$82m for Barbados green hydrogen project A major energy project planned for Barbados has won the approval for \$82 million in financing for its construction. The funding is part of a major partnership between the Green Climate Fund (GCF) and International Finance Corporation (IFC), a World Bank entity.

What is a solar project in Barbados?

This project aims to provide electricity to 16,000 homes at a competitive tariff in Barbados, helping reduce emissions and add firm generation capacity through domestic and abundant solar resources.

Will GCF support IFC's investment in renewstable Barbados?

At its board meeting this week, GCF approved the provision of up to \$82 million in blended concessional financing to support IFC's proposed investment in RenewStable Barbados, which is to be built in St Philip.

Barbados Container Generator Plant

Green Hydrogen

Situated at Harrow Plantation in St. Philip, in the Southeast of Barbados, this new power plant will replace 13 MW of imported fossil-fuel generation.
