PN: 51086 WSHR, FLT, M10, 20mm OD SSTL PN: 51087 WSHR, LK, Split, M10 SSTL
PN: 50954 Handle, M10 x 35 ADJ. Black .

Each section measures right under 33" so with the full 3 base kit builders have a true 8" of workable area. Each section features dual roller tracks to run accessory trays or thread carriages in the front or rear of the wrapper, as well as a center track to mount support stands as well as the.

WARNING: nVent products shall be installed and used only as indicated in nVent's product instruction sheets and training materials. Instruction sheets are available at nVent.com/ERICO and from your nVent customer service representative. Improper installation, misuse, misapplication or other failure.

BLOCK SIZE Small (S) Medium (M) Large (L) .

Power distribution blocks split a primary power or ground source (line) into secondary outputs (load) to distribute the connection to multiple branch circuits. Also known as power terminal blocks, they provide a fixed, tap-off point within enclosed equipment. They eliminate the need to run wires.

Known for top-notch quality, the Custom Rod Builder (CRB) brand has been the go-to source for affordable, practical, and cutting-edge rod building tools and equipment for custom rod builders of all skill levels. The CRB RBS Aluminum Base Station (ABS) is the foundation of the entire RBS Rod.

Base station power aluminum block specifications and models

Aluminum Base Station Kit for RBS Rod Building System, Black

The ABS (Aluminum Base Station) is the foundation for the RBS system. Each section measures right under 33âEUR so with the full 3 base kit builders have a true 8âEUR of ...
