

# Bulk purchase of low-pressure energy storage containers for community use

## Overview

---

This initiative will help meet energy storage goals and complement the growing use of intermittent technologies on the transmission and distribution systems. The RFP will be conducted in two phases. Any interested bidders must submit a Phase I offer no later than 5 p.m. EPT on.

This initiative will help meet energy storage goals and complement the growing use of intermittent technologies on the transmission and distribution systems. The RFP will be conducted in two phases. Any interested bidders must submit a Phase I offer no later than 5 p.m. EPT on.

On July 28, 2025, Governor Kathy Hochul announced the launch of New York State's first bulk energy storage competitive solicitation. In this initial solicitation (the 2025 "Index Storage Credit Request for Proposals," or "ISCRFP25-1"), the New York State Energy Research and Development Authority.

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage as part of New York's 6 GW Energy Storage Roadmap. Adding bulk energy storage to New York's grid will lower costs.

NEW YORK STATE — Gov. Kathy Hochul on July 28 announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage as part of New York's 6 GW Energy Storage Roadmap. Adding bulk energy storage to New York's grid will.

NYSEG has developed a request for proposal (RFP) to procure a minimum of 10 MW of energy storage projects to be in service by December 31, 2030. This initiative will help meet energy storage goals and complement the growing use of intermittent technologies on the transmission and distribution.

during the course of this Procurement cycle. To help you finalize your bids the Bulk Storage RFP Team will be hosting a webinar on February 7 at 10 AM. If there are questions where you are seeking further clarification please email [bulkstoragefp@coned.com](mailto:bulkstoragefp@coned.com) and we will use those questions as.

RG&E has developed a request for proposal (RFP) to procure a minimum of 10 MW

of energy storage projects to be in service by December 31, 2030. This initiative will help meet energy storage goals and complement the growing use of intermittent technologies on the transmission and distribution. What is New York State's first bulk energy storage competitive solicitation?

Categories: Storage , Energy Policy , Energy Storage , Batteries On July 28, 2025, Governor Kathy Hochul announced the launch of New York State's first bulk energy storage competitive solicitation.

What is bulk energy storage & how can it help New York?

New York Secretary of State Walter Mosley said, "In looking ahead for the state's future, bulk energy storage can provide the ability to store excess electricity during times of lower usage or high renewable production and return that electricity to the grid during peak times when it's needed most.

Why is bulk energy storage important?

New York State Public Service Commission Chair Rory Christian said, "Bulk energy storage will play an important role in our continued push to create a cleaner energy distribution system that's both affordable and reliable. Kudos to Governor Hochul for encouraging and promoting this initiative."

Should bulk energy storage be added to New York's grid?

Adding bulk energy storage to New York's grid will lower costs, optimize the generation and transmission of power, enhance energy grid infrastructure, and ensure the reliability and resilience of the State's electricity system.
