

# CRRC solar Wind Power Storage in Lyon France

## Overview

---

What is CRRC energy storage system?

It stores and releases energy, reduces wind and solar curtailment, manages peak demand, and enhances power supply reliability. CRRC has introduced the 5.X liquid-cooling energy storage system, featuring a 5 MWh single-cabin capacity and 99% maximum converter efficiency. The system ensures superior safety, longevity, and reliability.

What is CRRC Wind power?

It has successfully created an industrial cluster for wind power equipment, encompassing complete wind turbines, generators, blades, tower barrels, converters, gearboxes, transformers, and more. CRRC offers over 80 models, with flagship products spanning 1.5 MW to 12 MW for onshore applications and 8 MW to 20 MW for offshore applications.

How many wind farms does CRRC have?

With 20 manufacturing facilities, CRRC has equipped more than 260 wind farms worldwide, boasting a total installed capacity of over 13,000 units. CRRC's wind turbine blades, suitable for both onshore and offshore use, have a cumulative global supply exceeding 22,000 sets, securing a top-three market share worldwide.

What is CRRC's SMart wind farm & health management system?

Intelligent O&M: CRRC unveils its smart wind farm and health management solutions at the event. Its remote centralized monitoring system enables anytime, anywhere monitoring of wind turbine conditions. The health management system, equipped with fault diagnosis and early warning models, conducts real-time checkups.

## CRRC solar Wind Power Storage in Lyon France

### France Lyon Energy Storage Power Station Project A Milestone in

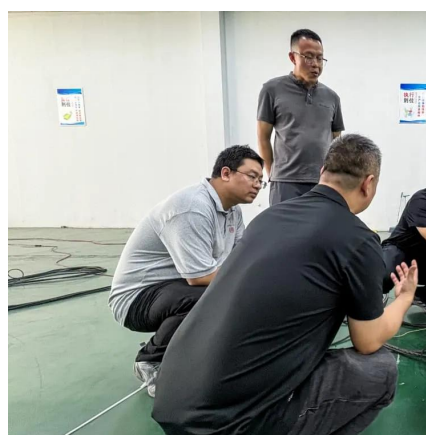

Solar and wind farms surrounding Lyon currently experience 34% curtailment during peak production hours. The storage station acts as a "energy reservoir," capturing excess ...
