

Container generator sales

Overview

Which generator sets are best for refrigerated container units?

The most rugged, dependable and easy-to-operate generator sets for refrigerated container units. Carrier's industry-leading PowerLINE Generator Sets are designed and built for continuous, unattended operation for all refrigerated containers transported by road or rail worldwide.

Why should you choose a containerised generator?

Fire Detection Panels and Intruder Alarms: Enhanced safety and security. Our containerised generators are suitable for a wide range of applications, including:
Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas.
Critical Backup Power: For MOD, NHS, and HMP sites, ensuring reliable performance in emergencies.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

Which gensets does Bay Container Services offer?

Bay Container Services offers a range of quality new and used Powerline UG15 gensets from Carrier for sale or lease. Our cost-saving lease program allows shippers, motor carriers, and owner-operators to increase profits and reduce maintenance or repair downtime.
