

Croatia solar Energy Storage solar container lithium battery Project

Overview

One of Croatia's flagship projects is the 60 MW/240 MWh battery storage system on Cres Island. Developed in partnership with EK SOLAR, this \$85 million project addresses the island's reliance on diesel generators. Once operational in 2026, it will: Reduce CO2 emissions by 12,000.

One of Croatia's flagship projects is the 60 MW/240 MWh battery storage system on Cres Island. Developed in partnership with EK SOLAR, this \$85 million project addresses the island's reliance on diesel generators. Once operational in 2026, it will: Reduce CO2 emissions by 12,000.

The European Bank for Reconstruction and Development (EBRD) is providing a direct equity investment of up to €16.8 million in IE-Energy Projekt, a newly established joint-stock company developing a greenfield battery energy storage system (BESS) and virtual power plant (VPP) in Šibenik, Croatia.

Croatia is moving forward with its largest grid-scale battery energy storage project thanks to a new investment from the European Bank for Reconstruction and Development (EBRD), the bank announced. The EBRD is investing up to €16.8 million in IE-Energy Projekt, a joint-stock company established.

The Croatian government has allocated almost €20 million (\$23.2 million) of European Union Modernization Fund grants to help complete a 60 MW/120 MWh battery energy storage system (BESS) at an aluminum rolling mill site days after plans were revealed for a utility-scale battery storage system in.

Croatia's Ministry of Environmental Protection and Green Transition has initiated the process to determine if a full environmental impact study is necessary for the proposed 99 MW Boksic solar power plant, which will include an integrated battery energy storage system (BESS). Once operational, the.

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near Šibenik, marking a significant step in modernising the country's energy infrastructure. The €60 million investment, co-financed by the European Bank for Reconstruction and Development.
