

Discount for 500kWh Energy Storage Containers Used in Schools

Overview

Through the Investment Tax Credit, schools can receive a payment ranging up to 70% of the cost to purchase and install a solar energy system and up to 50% of project costs for battery storage or ground-source heat pumps.

Through the Investment Tax Credit, schools can receive a payment ranging up to 70% of the cost to purchase and install a solar energy system and up to 50% of project costs for battery storage or ground-source heat pumps.

Through Elective Pay, school districts can access federal energy tax credits to defray the cost of highly-efficient, modern energy technologies. These upgrades can help districts reduce operating costs and create safer, more resilient facilities. The Energy Tax Credits for Schools Hub provides.

In January 2025, Jefferson County Public Schools (JCPS) in Kentucky received \$1.8 million in federal funding to install ground-source heat pumps at two new schools. These systems will improve indoor air quality, cool down classrooms, and cut energy costs – freeing up funds for teacher salaries and.

Schools seek out Briggs & Stratton Energy Solutions' batteries because they offer a safer, non-toxic lithium-ion alternative that doesn't put students or academic facilities at risk. Our small, scalable footprint does not require cooling or ventilation, allowing storage to be installed in tight.

State centralizes procurement and tax credits, enabling efficient replication at scale based on cookie-cutter model. Replicability provides predictable tax credit eligibility, predictable NEPA review. The alternative of financing with tax exempt bonds may reduce the amount of tax credits available.

Through the Investment Tax Credit, schools can receive a payment ranging up to 70% of the cost to purchase and install a solar energy system and up to 50% of project costs for battery storage or ground-source heat pumps. The Commercial Clean Vehicle Credit provides up to \$40,000 for the purchase of.

Clean energy tax credits made possible from the 2022 Inflation Reduction Act offers states and school districts non-competitive tax credits for eligible clean energy upgrades. These credits provide reimbursements for completed school-

based projects, including solar energy, energy storage.
