Myers Power Products offers Low Voltage Metal Enclosed Switchgear in 22", 30"

and 38" widths and fused and non-fused applications. Our Metal Enclosed Switchgear employs drawout-type low voltage power circuit breakers that operate manually or automatically. fused and non-fused applications. It is. What is medium voltage switchgear?

Medium voltage switchgear, or MV switchgear, protects electrical systems rated between 1kV and 75 kV. Common medium voltage switchgear ratings include but are not limited to 5kV, 15kV, 22kV, and 35kV. MV switchgear is used across commercial and industrial applications, commonly using air circuit breakers as their method of circuit protection.

What is MV switchgear?

MV switchgear is used across commercial and industrial applications, commonly using air circuit breakers as their method of circuit protection. That being said, air insulated medium voltage switchgear is becoming a popular choice, especially due to its safety features and cost-effectiveness.

What is low voltage switchgear?

Request a Quote Low voltage switchgear, or LV switchgear, refers to switchgear systems that are rated up to 1 kV (or 1000V). LV switchgear is most commonly used across industrial and commercial sectors for motors, air conditioners, heaters, lighting networks, among others.

What is arc resistant metal clad switchgear?

Arc resistant metal clad switchgear is especially built to not only withstand arc faults, but to safely redirect arc energy, keeping you and your switchgear system safe and saving you time and money in potential damages and subsequent repair.
