How much do solar panels cost in New York?

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average New York homeowner needs a 12.19 kW solar panel system to cover their electricity needs, which comes out to \$34,035 before incentives. Prices range from.

Solar power system cost based on your location, roof, power usage, and current local offers. Last updated: January 2026 As of 2026, the average cost of solar panels in New York is \$3.30 per watt, making a typical 6.9 kilowatt (kW) solar system \$16,632 after claiming the 30% federal solar tax credit.

Average solar panel installation costs range from \$9,838 to \$28,109 in New York. How much you pay depends on the size of your system, what incentives you're eligible for, your home's sunlight exposure and other factors. Assuming an upfront purchase, it takes about 8.12 years to break even (when.

For homeowners in New York, the average cost for a professionally installed residential rooftop solar system typically ranges from \$19,000 to \$35,000 before any tax credits or incentives are applied. This guide will provide a comprehensive breakdown of what that investment includes, the key factors.

Solar panel installation means adding a photovoltaic (PV) energy system to your home, mounted on your roof or property. System size, panel type, and labor needs are the biggest cost drivers, along with your roof's condition and any upgrades. Solar panels can sharply reduce your monthly energy bills.

The cost of solar panels varies based on system size, equipment type, and installation factors. In New York, the average cost of a solar panel system ranges from around \$30,000 to \$50,000 before tax credits. The cost-per-watt in New York averages around \$3.20, and is a valuable metric for comparing.
