

Jordanian energy storage equipment company

Overview

What are Jordan's energy storage technologies?

Energy Storage Technologies: Jordan is exploring energy storage solutions, particularly pumped-storage hydropower (PSH), with intention to establish a storage project at Al-Mujib dam before 2030. This may also present opportunities for the U.S. energy sector.

Is Jordan a potential energy producer?

The market should be monitored for opportunity over the medium term. Hydrogen production - The Ministry of Energy and Mineral Resources (MEMR) has begun preparing a policy and regulatory framework for green hydrogen production and its derivatives. Jordan has medium- and long-term potential as an energy producer of non-conventional and RE.

Does Jordan have a strategy for green energy export?

Jordan also plans to develop a hydrogen strategy for green energy export. The market should be monitored for opportunity over the medium term. Hydrogen production - The Ministry of Energy and Mineral Resources (MEMR) has begun preparing a policy and regulatory framework for green hydrogen production and its derivatives.
