

Latvia supporting energy storage solar project

Overview

Denmark-based European Energy has received EUR 37.9 million in long-term financing from Luminor to build a hybrid solar and battery project in Saldus, Latvia. The plan includes a 65 MW solar park and a 92 MWh battery system across 96 hectares. European Energy and Sampension co-own.

Denmark-based European Energy has received EUR 37.9 million in long-term financing from Luminor to build a hybrid solar and battery project in Saldus, Latvia. The plan includes a 65 MW solar park and a 92 MWh battery system across 96 hectares. European Energy and Sampension co-own.

Financing agreement with Luminor supports European Energy's delivery of large-scale hybrid renewable project in Latvia. European Energy has secured EUR 37.9 million of long-term project financing for a hybrid solar and battery storage project in Saldus, Latvia. Once operational, it will be among.

The European Bank for Reconstruction and Development (EBRD) is boosting Latvia's renewable energy capacity through a new €35.2 million loan provided to Sunly, a leading Baltic renewable energy developer. The funding is part of a joint €84.8 million loan package co-financed with the European.

Local authorities are responsible for municipal energy supply and renewable energy projects, with Latvia's energy transition guided by the National Energy and Climate Plan and the Energy Strategy 2050. Latvia's Energy Strategy 2050 outlines major changes in renewable energy production and storage.

Danish renewables company European Energy has secured €37.9 million in financing for a major hybrid solar and energy storage project in Latvia, a landmark move for the nation's green energy transition. European Energy, a Danish leader in renewable energy, is spearheading a significant hybrid.

Danish renewables developer European Energy has obtained EUR 37.9 million (USD 43.8m) in long-term project financing for a solar-plus-storage project in Latvia, which is co-owned together with Danish pension company Sampension. Solar park in Latvia. Image by: European Energy. The non-recourse.
