Fenaka, in partnership with the Ministry of Climate Change, Environment and Energy, has officially launched the Magey Solar program, an ambitious initiative aimed at harnessing solar energy by installing photovoltaic (PV) systems on the rooftops of private homes across the Maldives. This program is.

The Maldives has launched a tender for the development of a 1.5 MW rooftop solar project across 11 islands. This initiative, part of the World Bank-funded Accelerating Renewable Energy Integration and Sustainable Energy (ARISE) program, underscores the nation's commitment to adopting renewable.

Swimsol, Pontiac Land Group and Patina Maldives have expanded solar capacity at Fari Islands to 6.4 MW by adding floating and rooftop systems. Fari Islands project with Swimsol added 2,160-panel floating solar system supplying 24 percent of total energy. Image Source: Maldives Marketing and PR.

Transform the energy landscape of an entire nation through the Ministry of Tourism and Environment's groundbreaking residential solar initiative. This USD 200 million opportunity enables investors to deploy 100MW of household solar systems across the Maldives, creating the region's most extensive.

Fari Islands, the four-island archipelago and unique ecosystem of world-class hospitality brands including The Ritz-Carlton Maldives, Fari Islands, Capella Hotel Group's Patina Maldives and the innovative Fari Campus, is working collaboratively towards its net zero vision. Announcing significant.

Environment Ministry has opened applications for the installation of rooftop solar

panels at households as part of 'Magey Solar' program. The program, funded by the Asian Development Bank (ADB), is a joint initiative of the Ministry and Fenaka Corporation with the company carrying out the.
