hazardous areas in Zones 1, 2, 21 and 22. It is nec- equipment. this purpose. ble. All the electrical outgoing circuits can be fitted with separate MCBs or ELCBs. Customized compo- with the required Certificate of Conformity. protection IP 66, even with plugs inserted. under most extreme industrial.

The Larson Electronics EPL-RPS-12.12.10-MOD1 Explosion Proof Power Supply offers mobile power distribution solutions for Class I, Division 1 combustible sites. This unit is equipped with battery holders for customer-provided Fukuda batteries, an internal battery charger and three explosion proof.

A spark or hot surface can lead to serious industrial accidents in certain environments. In these environments, electronic devices must help ensure occupational health and safety by means of a special design and certificates. SITOP 24 V power supplies and add-on modules are therefore also available.

Single output industrial power supply suitable for Omega/DIN rail mounting. Explosion proof box, ATEX II 2GD – IECEx approved (dimensions: 210 x 250 x 150 mm). Single output industrial power supply unit for OMEGA/DIN rail mounting in ATEX and IECEx certified ADPE explosion-proof box.

Special requirements apply for power distributions for the use and operation of portable equipment in hazardous areas in Zones 1, 2, 21 and 22. It is necessary to ensure that any external mechanical influences are effectively kept away from the equipment. CEAG explosion-protected power.

Ideal for: remote solar PV powered systems, navigation systems & more The

iPS1200EX explosion proof Zone 1 & 2 Uninterruptible Power Supply supplies a reliable and stable supply voltage to critical control & instrumentation systems in Zone 1 & 2 hazardous areas and supporting equipment from short.
