

New Delhi EK solar container outdoor power 3 degrees

Overview

Is there a surge in rooftop solar connection installations in Delhi?

New Delhi: With Delhi govt launching the revised solar energy policy earlier this year, there was a surge in the number of rooftop solar connection installations in the national capital.

Does Delhi have a solar policy?

Delhi launched its solar policy in 2016, and in 2023, introduced an updated solar roadmap with the goal of achieving 6,000 MW of installed capacity by 2025. Households can claim up to ₹1.08 lakh in total subsidies, while commercial and industrial users benefit from up to ₹1/kWh in GBIs and 50% savings on power bills.

How much solar power does Delhi have?

Delhi's current solar power generation is over 1,500MW, which includes 270MW from rooftop solar installations and nearly 1,250MW from larger utility-scale solar power systems.

How has BSES energised solar power in Delhi?

"BSES has energised over 7,100 rooftop solar systems, contributing nearly 180MWp of solar power to the grid. This is also helping to alleviate Delhi's pollution," he added. "In FY 2024-25, BSES aims to add over 1,500 installations, generating an additional 30MW of solar capacity."
