### [How do I create a remote Git branch?](#)

First, create a new local branch and check it out:  
git checkout -b  
The remote branch is automatically created when you push it to the remote server:  
git push [Request Quote](#)

### [Difference between 'new operator' and 'operator new'?](#)

A new expression is the whole phrase that begins with new. So what do you call just the "new" part of it? If it's wrong to call that the new operator, then we should not call ...

## [When to use "new" and when not to, in](#)

## C++?

You should use `new` when you wish an object to remain in existence until you delete it. If you do not use `new` then the object will be destroyed when it goes out of scope.

## **url**

I was searching on this link before finding this answer. I did not find the solution in the link because I was looking for "newline" or "new line" instead of "line feed".
