Coordinates: Latitude: 9°29'43.87"N Longitude: 79°41'58.38"W Panama, Colón.

When will universal solar install a solar plant in Panama?

The U.S. has had a free trade agreement with Panama since 2012. Equipment for the plant should be installed by early October and up to 50 employees will be hired. Universal Solar expects first delivery of modules in the fourth quarter of.

While Panama is a global logistics champion, it does not yet produce the highly specialized components required for photovoltaic modules. This presents a critical challenge that must be addressed from the earliest planning stages. Any new manufacturing operation must navigate a global sourcing.

Colón, Panama presents a moderately favorable location for year-round solar energy generation, with the tropical climate providing consistent sunlight throughout most of the year rather than the traditional four-season variations found in temperate regions. The solar energy output at this location.
