

Nine Energy Storage Power Industry

Overview

NineDot Energy is the leading community-scale, battery storage developer and operator in the New York City metropolitan region. We create innovative urban energy solutions that support a more resilient grid, deliver economic savings, reduce carbon emissions, and improve environmental.

NineDot Energy is the leading community-scale, battery storage developer and operator in the New York City metropolitan region. We create innovative urban energy solutions that support a more resilient grid, deliver economic savings, reduce carbon emissions, and improve environmental.

We are the leading developer of community-scale battery energy storage systems (BESS) in the New York City metropolitan area. With sites in the Bronx, Brooklyn, Queens and Staten Island as well as Westchester County and Long Island, NineDot Energy is helping to make our local power grid cleaner.

Rows of secure battery units at a NineDot Energy site in Staten Island, designed to store clean power and support New York City's electric grid during peak demand. Ten years into its mission to green New York City's fossil fuel-dependent power mix, community-scale battery storage developer NineDot Energy is itself a powerhouse, having secured US\$65 million in financing from First Citizens Bank. The money will support NineDot's purchase of nearly 100 megawatts.

An innovative battery energy storage installation supported by NYSERDA brings grid benefits and decarbonization into a crowded urban area. NineDot's first battery project on a very small plot of land in the northeast Bronx went live in 2023. Source: NineDot Energy. Active site: 7,000 square feet.

NEW YORK-- (BUSINESS WIRE)-- NineDot Energy ®, the leading developer of community-scale battery energy storage systems (BESS) in the New York City metropolitan area, today announced that it secured an additional \$225 million equity capital commitment from Manulife Investment Management as well as.

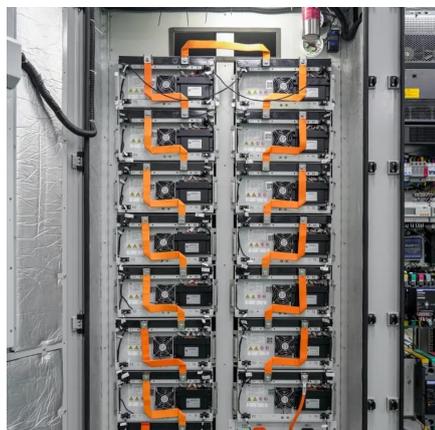

2025 energy storage installations through Q3 2025 surpass 2024 totals Delivered

quarterly, the US Energy Storage Monitor from the American Clean Power Association (ACP) and Wood Mackenzie Power & Renewables provides the clean power industry with exclusive insights through comprehensive research on.
