

Omani Energy Storage Container with Grid Connection for Oil Refineries

Overview

Who owns oil in Oman?

State-owned Petroleum Development Oman (PDO) holds most of Oman's oil reserves and is Oman's largest oil and gas operator. U.S. firm Occidental Petroleum is the second-largest operator after PDO and has the largest presence of any foreign firm in Oman.

What is Oman's national energy strategy?

Oman's National Energy Strategy aims to derive 30 percent of electricity from renewable sources by 2030. There are opportunities in renewable energy as Oman pursues economic diversification and explores alternatives to hydrocarbons for power generation.

How much oil does Oman have?

By the end of 2024, Oman's crude oil and oil condensates reserves stood at approximately 4,825 million barrels, and natural gas reserves at about 23 trillion cubic feet. Oman's Ministry of Energy and Minerals (MEM) coordinates the government's role in Oman's hydrocarbon sectors.

Why is oil important in Oman?

The oil industry supports Oman's modern and expansive infrastructure, including electric utilities, roads, public education, and medical services. Oman can produce upwards of one million barrels per day of crude oil and condensates, but honors OPEC+ quotas.
