

Palestine user-side energy storage project with two charging and two discharging

Overview

What is the largest solar installation in Gaza?

PRICO is the largest solar installation in Gaza and the first one for which an ad-hoc grid integration solution has been developed with the grid operator to ensure power evacuation and 24/7 continuity of supply. This is a standard-setting benchmark that is replicable and scalable in other locations.

What is IFC's rooftop solar energy facility in Gaza?

The Palestine Real Estate Investment Co's (PRICO) rooftop solar energy facility is IFC's first large-scale solar energy installation in Gaza and is supported by the IFC-Canada Climate Change Program.

What is IFC doing in Gaza?

Applying learnings and the framework from Gaza, IFC followed up in 2020 with an investment in the Massader Solar rooftop program. PRICO is showing early signs of high development impact in a fragile economy that is afflicted by unemployment, poverty, and political instability. Gaza is particularly affected by acute power shortages.
