

# Price of 540 solar panels

## Overview

---

WAAREE Bi-55-540 is a high-efficiency solar panel delivering 540 watts of power. Featuring dual glass construction and bifacial Mono PERC technology, this panel captures sunlight from both sides for increased energy output.

WAAREE Bi-55-540 is a high-efficiency solar panel delivering 540 watts of power. Featuring dual glass construction and bifacial Mono PERC technology, this panel captures sunlight from both sides for increased energy output.

Now let's compare it to a 6 kW system built with 540 W solar panels. A PV module from ZNShine needs about 28 ft<sup>2</sup> of space, and you need only 11 of them to build a 6 kW system. The math: 28 ft<sup>2</sup> × 11 modules = 308 ft<sup>2</sup>. You save 50 ft<sup>2</sup>, enough to install two more 540 W modules. Installing 540 W solar.

Waaree Bi-55-540 WP solar module features highly efficient Mono PERC M10 cells, maximizing energy production. The advanced technology ensures superior performance and durability, making it an ideal choice for high-efficiency solar installations. Waaree solar module offers best-in-class thermal.

A large-format, 144 half-cut M10 mono-PERC module delivering 540 W (STC) at ~21 % efficiency. It's built on Waaree's Tier-1, ALMM-listed production line, carries a 1500 V DC rating for long strings, and comes with a 12-year product / 25-year linear power warranty (-0.34 % / yr after year 1). The.
