

Price of a 15kW UK Mobile Energy Storage Container

Overview

What is a givenergy battery storage container?

Compact, mobile, convenient, and fully customised to your power needs. With a GivEnergy battery storage container, you can house your critical battery assets securely. We can neatly package your large-scale commercial battery storage system in a custom-built container – giving you unparalleled flexibility on its location.

What are the benefits of a containerised battery storage system?

Reduce operating costs: Optimise energy use through load shifting and peak shaving to lower overall costs. Deploy quickly and scale easily: Modular, containerised systems can be installed fast and adapted to changing power demands. What is a battery storage system (BESS)?

.

What is a single battery energy storage unit?

Single battery energy storage units can be easily combined to deliver the power and energy capacity required for your business - from 30 kVA to multi-MW, and can cover a variety of applications, providing flexible, reliable, and cost-effective power. Visit our product explorer to learn more on technical data in a 3D immersive environment.

What is a containerised storage system?

Containerised solutions range from 30 - 500kW power and 200 - 2800kWh capacity, within 10 - 45ft containers. For even larger storage capacity, multiple containers can be combined and stacked. Your containerised system comes to you with all the necessary systems included, Class 0 fire rated, and fully insulated and lined.

Price of a 15kW UK Mobile Energy Storage Container

Battery storage container , Power capacities to suit any industry

We can neatly package your large-scale commercial battery storage system in a custom-built container - giving you unparalleled flexibility on its location. All manufactured in the UK.
