How much does a mining container cost?

The size of the site matters when looking into mining containers. If there is a specific output wattage the site is targeting, it's best to base your container purchase on that. For example, small flaring sites run a small modular data center costing around \$20,000 to \$40,000.

How does depreciation affect container prices in India?

Container prices are often benchmarked in USD. With the rupee averaging ₹87.9 per USD in late 2025, any depreciation directly raises container import or leasing costs. Even domestic resellers adjust pricing to account for global USD-indexed trade values, which means Indian buyers indirectly absorb exchange-rate risk.
