

Seychelles solar energy storage power generation company

Overview

Our aim is to provide reliable technologies including photovoltaic panels and dependable installation service. Certified by Seychelles Energy Commission Approved by PUC Use solar energy independently by using battery storage or a hybrid system.

Our aim is to provide reliable technologies including photovoltaic panels and dependable installation service. Certified by Seychelles Energy Commission Approved by PUC Use solar energy independently by using battery storage or a hybrid system.

We supply and install high quality solar energy systems and solar hot water products in the Seychelles. Our aim is to provide reliable technologies including photovoltaic panels and dependable installation service. Certified by Seychelles Energy Commission Approved by PUC Use solar energy.

Paris & Mahé, August 20, 2025 – Independent renewable energy company Qair has secured a USD 5.7 million senior debt facility from the Facility for Energy Inclusion (“FEI”), managed by Cygnum Capital, to finance the development, building, operations, and maintenance of a 5.8 MWp Floating Solar plant.

By mid-2025, Seychelles is poised to take a significant leap in renewable energy with the launch of its first floating solar farm—the largest in Africa. Spanning 32 hectares of the Providence lagoon, this ambitious project is a collaboration between the nation’s Public Utilities Corporation (PUC).

French renewable energy company Qair has secured a \$5.7 million (approximately € 4.8 million) senior debt facility from the Facility for Energy Inclusion (FEI), managed by Cygnum Capital, to finance the development, construction, and operation of a 5.8 MWp floating solar plant in Providence Lagoon.

« Energy Solutions Seychelles has been installing solar panels and photovoltaic (PV) systems in Seychelles since 2012 and provides renewable energy products and energy efficiency consultancy. Start off by choosing the island in Seychelles where you will be staying. Learn more about the tours and.

The Seychelles has long faced challenges in its journey towards renewable energy,

primarily due to limited land availability, suboptimal wind resources, and its reliance on Heavy Fuel Oil and diesel. This dependency has resulted in some of the highest electricity tariffs in the world, placing. Who can install photovoltaic systems in Seychelles?

Contact our professional staff for a comprehensive project proposal. ESS has been installing photovoltaic (PV) systems in Seychelles since 2012 and provides renewable energy products and energy efficiency consultancy. © 2019 Energy Solutions Seychelles. All Rights Reserved. Powered by Com & Click.

What does the Seychelles government do?

The Seychelles Government is committed to providing adequate, reliable and affordable energy to meet future energy consumption needs and to underpin strong economic growth through consumable energy initiatives. The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar.

How can I use solar energy in Seychelles?

Certified by Seychelles Energy Commission Approved by PUC Use solar energy independently by using battery storage or a hybrid system. Full range of maintenance and monitoring services available for your solar energy system. Voltage optimisation and power factor correction devices.

What is the Seychelles energy plan?

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel generators with domestic and international public and private financing.
