

Solar and Breeze Energy Storage Project

Overview

Governor Kathy Hochul today announced that contracts have been executed for 23 large-scale land-based renewable energy projects that will provide more than 2.3 gigawatts of clean energy, which is enough to power more than 700,000 homes throughout New York State.

Governor Kathy Hochul today announced that contracts have been executed for 23 large-scale land-based renewable energy projects that will provide more than 2.3 gigawatts of clean energy, which is enough to power more than 700,000 homes throughout New York State.

Governor Kathy Hochul today announced that contracts have been executed for 23 large-scale land-based renewable energy projects that will provide more than 2.3 gigawatts of clean energy, which is enough to power more than 700,000 homes throughout New York State. The projects are expected to create.

We expect 63 gigawatts (GW) of new utility-scale electric-generating capacity to be added to the U.S. power grid in 2025 in our latest Preliminary Monthly Electric Generator Inventory report. This amount represents an almost 30% increase from 2024 when 48.6 GW of capacity was installed, the largest.
