

Solar glass industry trends

Overview

By glass type, anti-reflective coatings led with a 57% solar photovoltaic glass market share in 2024, while TCO glass is projected to expand at 22.46% CAGR through 2030. By manufacturing process, float lines delivered 68% of 2024 volume; rolled glass is forecast to.

By glass type, anti-reflective coatings led with a 57% solar photovoltaic glass market share in 2024, while TCO glass is projected to expand at 22.46% CAGR through 2030. By manufacturing process, float lines delivered 68% of 2024 volume; rolled glass is forecast to.

Global solar glass market size was forecasted to be worth USD 7.83 billion in 2024, expected to achieve USD 24.1 billion by 2033 with a CAGR of 13.3% during the forecast period. I need the full data tables, segment breakdown, and competitive landscape for detailed regional analysis and revenue.

The global solar PV glass market was valued at USD 53.5 billion in 2024 and is estimated to grow at a CAGR of 7.9% from 2025 to 2034. The demand for solar PV glass is directly impacted by the notable increase in solar installations brought about by the global push for renewable energy sources.

The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, advancing at an 18.42% CAGR between 2025 and 2030. This sustained expansion reflects policy-driven installation targets, rapid cost deflation across the module supply.

It has led to increased investments in solar power projects worldwide, raising the demand for solar PV glass. The growth of solar installations, large-scale utility projects, and residential rooftop systems is contributing to the expansion of the market. To learn more about this report, [Download](#).

The global solar photovoltaic glass market size is valued at USD 17.09 billion in 2025 and is predicted to increase from USD 22.43 billion in 2026 to approximately USD 196.89 billion by 2034, expanding at a CAGR of 31.20% from 2025 to 2034. Asia Pacific dominated solar photovoltaic glass market in.

The solar glass industry is characterized by its innovation and technological

advancements, which enhance the efficiency and durability of solar panels. As manufacturers strive to produce more efficient solar modules, the demand for high-quality solar glass that can withstand harsh environmental.

Solar glass industry trends
