

# Thailand Heavy Industry Energy Storage Vehicle

## Overview

---

March 26, 2025 – Toyota Motor Corporation (TMC), Toyota Motor Asia (TMA), and Siam Cement Group (SCG), in collaboration with partner companies including Toyota Tsusho Corporation (TTC), have commenced a demonstration project for a stationary Battery Energy Storage System (BESS).

March 26, 2025 – Toyota Motor Corporation (TMC), Toyota Motor Asia (TMA), and Siam Cement Group (SCG), in collaboration with partner companies including Toyota Tsusho Corporation (TTC), have commenced a demonstration project for a stationary Battery Energy Storage System (BESS).

The Thai government's initiatives to promote greener transportation and reduce CO2 emissions are driving demand for electric buses and trucks in Thailand. The Electric Vehicles Association of Thailand reports that registrations of new battery electric vehicles (BEV) grew 380 percent from 20,816.

Thailand intends to source nearly 35,000 MW of new electricity from renewables as it looks to reach carbon neutrality and net zero commitments. However, the deployment of Battery Energy Storage Systems across the country remains limited. There are plans to increase storage capacity, but it may not.

The Provincial Electricity Authority (PEA) of Thailand will explore the feasibility of energy storage business models in collaboration with Nuovo Plus, a subsidiary of state-owned oil and gas company PTT Group. PEA, responsible for electricity provision in 74 provinces, excluding urban centers like.

March 26, 2025 – Toyota Motor Corporation (TMC), Toyota Motor Asia (TMA), and Siam Cement Group (SCG), in collaboration with partner companies including Toyota Tsusho Corporation (TTC), have commenced a demonstration project for a stationary Battery Energy Storage System (BESS) utilizing vehicle.

Nevertheless, Thailand's decarbonisation commitments in its Nationally Determined Contributions (NDCs) under the Paris Agreement have triggered new rounds of renewable energy deployment, with over eight GWp of greenfield wind and solar projects announced or in the procurement pipeline. Moreover, a.

Why Thailand's Energy Storage Scene Is Heating Up (Literally!) Bangkok's streets

buzzing with electric tuk-tuks charged by solar farms, while resorts in Phuket keep their aircons running smoothly using battery systems. This isn't science fiction - it's the future being shaped by energy storage.

## Thailand Heavy Industry Energy Storage Vehicle

### U Power and Whale Logistics to deploy 1,000 battery-swapping ...

U Power Limited has entered into a strategic partnership with Whale Logistics Group to deploy up to 1,000 battery-swapping electric truck tractors in Thailand, marking U Power's ...
