

# Tunisian Investment Group solar Energy Storage

## Overview

---

This landmark project will be the first large-scale privately financed grid-connected solar independent power producer in the country and will support the government of Tunisia's goal to increase the share of renewable energy in its energy mix to 35% by 2030.

This landmark project will be the first large-scale privately financed grid-connected solar independent power producer in the country and will support the government of Tunisia's goal to increase the share of renewable energy in its energy mix to 35% by 2030.

WASHINGTON, July 31, 2024 — The Multilateral Investment Guarantee Agency of the World Bank Group (MIGA) has issued a guarantee to AMEA Power Ltd. of the Cayman Islands for its investments in Kairouan Solar Plant, SARL in Tunisia. The \$23.5 million guarantee covers the risks of transfer restriction.

Tunisia is taking the World Bank's help for large-scale solar and storage projects in the country. (Illustrative Photo; Photo Credit: Jenson/Shutterstock.com) The World Bank has launched a call for interested consultants to conduct a technical study for a 350 MW to 400 MW solar and battery storage.

TUNIS, November 11, 2025 — The World Bank and the Government of Tunisia have concluded a financing agreement to support Tunisia's energy sector modernization agenda through the Tunisia Energy Reliability, Efficiency, and Governance Improvement Program (TEREG). This five-year program of US\$430.

The Tunisian Solar Plan (TSP) is not merely an environmental goal but an industrial policy designed to favor local production for its ambitious infrastructure projects. This creates a unique opening for investors ready to establish a credible, high-quality local manufacturing presence. This article.

From 2013 to 2015, major reforms have strengthened the regulatory framework, with the creation of the Energy Transition Fund and Law 2015-12, which opened electricity generation to the private sector through concession, authorization and self-consumption schemes. Today, Tunisia is continuing to.

Which solar projects have been approved in Tunisia?

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltalia, Toyota Tsusho and Scatec. Tunisia's Minister of Industry, Mines and Energy, Fatima. Why is Tunisia investing in a secure electricity network?

To ensure a resilient electricity network, Tunisia is investing in modern, secure infrastructure. The ELMED interconnection project, which will link Tunisia to Italy by 2028, will play a key role in stabilizing energy supply, while supporting the energy transition in Tunisia and Europe.

Why should Tunisia invest in tereg?

“ By fostering renewable energy development, TEREK will strengthen Tunisia’s position in clean energy, creating economic opportunities and ensuring long-term energy security,” said Alexandre Arrobbio, World Bank Country Manager for Tunisia. “ This project reflects our strong partnership with Tunisia and supports its sustainable development goals.

How many solar and wind power projects are in Tunisia?

Solar and wind power projects subject to authorization : Tunisia has granted authorizations for projects with a capacity of 381 MW, including 261 MW of solar PV and 120 MW of wind power. 2 plants with a unit capacity of of Tataouine and Sidi Bouzid.

How will the tereg program help Tunisia achieve its goals?

The TEREK program is expected to support Tunisia in achieving its goals to mobilize US\$2.8 billion in private investment to add 2.8 gigawatts of new solar and wind capacity by 2028, and create over 30,000 jobs, primarily during the construction phase of renewable projects.
