

Türkiye builds energy storage power station

Overview

Progresiva, a subsidiary of Kontrolmatik Technologies, is set to embark on Türkiye's largest grid-scale energy storage project in Tekirdağ. This groundbreaking facility will be the first of its kind in Türkiye, boasting a GWh capacity.

Progresiva, a subsidiary of Kontrolmatik Technologies, is set to embark on Türkiye's largest grid-scale energy storage project in Tekirdağ. This groundbreaking facility will be the first of its kind in Türkiye, boasting a GWh capacity.

Turkey aims to become energy independent and resilient to external influences. Turkey will accelerate rolling out new electric storage capacity to meet domestic energy security needs and feed in to anticipated growth in demand from the country's expanding tech sector. Speaking at a media event last.

Progresiva, a subsidiary of Kontrolmatik Technologies, is set to embark on Türkiye's largest grid-scale energy storage project in Tekirdağ. This groundbreaking facility will be the first of its kind in Türkiye, boasting a GWh capacity. Moreover, it will be accompanied by the launch of a wind energy.

Progresiva, a subsidiary of Kontrolmatik Technologies, is set to embark on Türkiye's largest grid-scale energy storage project in Tekirdağ. This groundbreaking facility will be the first of its kind in Türkiye, boasting a GWh capacity. As kettles whistle and lights flicker on, Türkiye's electricity.

According to the International Energy Agency's (IEA) latest data, renewable energy generation surpassed coal globally in the first half of 2025. 1. A Turning Point in Global Energy Trends According to the International Energy Agency's (IEA) latest data, renewable energy generation surpassed coal.

Türkiye is making significant strides toward its 2053 net-zero carbon emissions goal by ramping up investments in energy storage systems according to Türkiye daily. The Energy Market Regulatory Authority (EMRA) approved a 35-gigawatt-hour (GWh) capacity allocation for grid-scale storage projects.

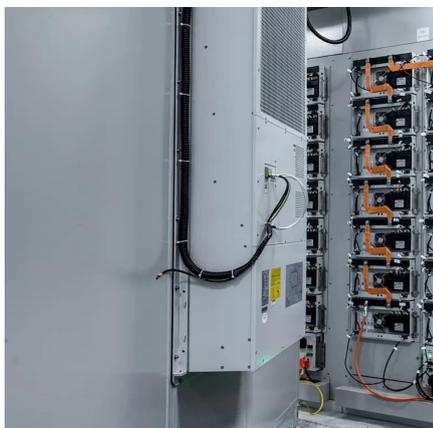

According to Embassy of the Republic of Turkey, Turkey has introduced a number of

incentives and regulations to achieve its goal of 80 gigawatt-hours (GWh) of energy storage by 2030, while agreements for the energy sector to set up cell and battery factories have exceeded \$1 billion (TL 35 billion).
